## Joint AgNER Appropriations Committees Follow-up to March 6 Presentation on Economic Development March 25, 2019

- 1. Where (in what counties) have film productions take place in North Carolina in recent years? The attached spreadsheets (also in the Follow-Up folder for March 26<sup>th</sup> and March 6<sup>th</sup>'s meetings on the Committee website) show the locations of film productions that reported their information to either the State Film Office or one of the regional film commissions. These include productions that received either a Film Production Tax Credit or a Film Grant, as well as productions that did not receive either of those incentives.
- 2. How does North Carolina's film grant program compare to other states?

  The attached NCSL report (also in the Follow-Up folder for March 26<sup>th</sup> and March 6<sup>th</sup>'s meetings on the Committee website) provides information on film incentive programs in all 50 states as of 2018.
- 3. Is there data showing the economic impact of film productions to North Carolina? Below is a graph of spending by film productions in North Carolina in recent years. This graph includes productions that reported their information to either the State Film Office or one of the regional film commissions.

4. How common are clawbacks in economic development programs?

The ratio of clawbacks to awards by program is:

JDIG: 12/181 (6.6%) since 2009 JMAC: 0/4 (0%) since 2008

One NC: 16/518 (3.1%) since 2007 Utility Account: 5/54 (9.3%) since 2013

Rural Infrastructure: 28/277 (10.1%) since 2013
